

Accept payments wherever you go

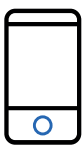

Instantly transform any mobile device
into a payment terminal.

When we say customers expect to make payments anywhere, we mean anywhere. Forte's native mobile app and card reader make it easy to accept credit card and eCheck payments on the go. Just plug the card reader into your mobile device. Our solution includes real-time fraud detection so you can make face-to-face sales with confidence.

KEY BENEFITS

Experience the freedom of payments that move with you.

Make more sales

Maximize sales opportunities by accepting payments wherever you go.

Customize your experience

Forte's mobile app is configurable to meet your needs.

Real-time fraud detection

Instant card authentication helps prevent fraudulent transactions.

The right data

Send/email transaction receipts and access daily sales summaries.

Take payments on the go

One device. Total payment acceptance.

✓ eChecks

Key in account information on your mobile device and process eChecks in seconds.

✓ Credit/debit cards

Plug the reader into your mobile device and instantly accept card payments via swipe.

For iOS devices,
use the iDynamo.

For Android devices,
use the uDynamo.

Powerful payments technology

In addition to card readers that pair with our mobile app, Forte also offers the following EMV-enabled point-of-sale solutions:

V400c

A robust, encrypted countertop terminal that can be used in standalone or hybrid mode. EMV-capable.

eDynamo

A compact, portable device that enables card acceptance anytime, anywhere. Can be used with Forte's Dex, BillPay, FCO and AGI solutions.
